# Mission Training Complex Capabilities Support (MTCCS) September PALT Push Item

UNCLASSIFIED

# MTCCS Overview

- This is NOT a PEO STRI supported acquisition. As such, there is no local PEO STRI PM supporting this. The requiring activities are typically Army Corps level Mission Training Complex's and their associated spokes.
- This requirement contains some War Fighter FOCUS divest work (18<sup>th</sup> ABN Corps, USARPAC and JBSA MTC), and some new external customer work (III Corps, potentially I Corps and Army Reserve MTC).
- We are asking for industry to be aware that our requiring activities personnel are NOT acquisition professionals, and are not accustomed to the level of industry interest in inquiry as the PEO STRI PM's would be. The requiring activities have been presented with areas they can and can't talk about, however, there may be times when they are just not comfortable discussing some items. Please be mindful and respectful of this. As a team, we commit to be as transparent as possible, but this may not be to the level that you are accustomed to like you would be with a PEO STRI requirement.

# Sources Sought Overview

- Sources Sought notice W900KK-15-R-0052 posted 3 September 2015
- Contemplated NAICS is 541330 Engineering Services
